Kayla was going to have a regular day, but that didn't happen.

1. A "Regular" Day

Ring Ring.

The phone woke Kayla up from her dream about kissing the famous actor Will Smith. Kayla was quite pissed. "Who the hell could that be at this hour?!? I have a life you know!" she got up out of bed and answered the phone. It was Carol. "Yeah and what do you want? I am not in a mood to talk about your stupid obsessions at this hour!" She was being so rude. "Fine then" Carol said, "You dont care about my needs then don't talk to me!" Carol hang up. "Stupid b***h." Kayla said to herself. She expected that her day would be perfectly normal, but the doorbell rang and as she opened the door, a gunshot was fired at her and in a instant, she was dead.
